Here's a couple of additional contacts who might be good for this reporter to contact.

Kirsten Brown

Colorado Department of Natural Resources, Division of Reclamation and Mine Safety

970-903-7889

Kirsten gave an excellent presentation at the ARSG on bulkheads

Trevor Denney

Colorado Department of Public Safety

Regional Field Manager Southwest & San Luis Valley

On question 1, I don't think EPA should be speculating on Silverton's possible reactions. We can refer the reporter to Bill Gardner, Silverton's Town Administrator – bgardner@silverton.co.us 970.387.5522 x13. Additionally, we might refer them to CDPHE who

is convening a conversation on long-term mitigation strategies.

On question 2, David can you work on response for that.

New inquiry from Jesse Paul. Thanks in advance for your help.

Jesse Paul

Denver Post

DDL flexible but by 10/1

Inquiry:

1. I'm looking towards the future of the area. There's a lot of interest in how Silverton will react moving forward and how to deal with the problem of mitigation and clean up in the Upper Animas. Any thoughts on that?

2. I'm also curious to see if plugging the R&B will increase flows from the GKM?
